"Finding and Reminding" Reconsidered - Scott Fertig (1996) (Correct) (1 citation)

among all the users: 1. A preference for **location-based** search for finding files (in contrast to While we applaud their efforts to study the most **basic** aspects of user/computer interaction, we believe inclusion in computer-based systems. Yet today, **software** systems provide little support for reminding. www.cs.yale.edu/HTML/YALE/CS/Linda/./HyPlans/freeman/papers/SIGCHI/paper.ps

Independently Extensible Systems - Software Engineering.. - Szyperski (1996) (Correct) (24 citations)

c.szyperski@qut.edu.au Abstract Component-based **software**, open systems, and document-based user Independently Extensible Systems -**Software** Engineering Potential and Challenges-Clemens still many problems, mostly in terms of complex **installation** and configuration procedures. However, www.fit.qut.edu.au/~szypersk/pub/ACSC96.ps.gz

Software Transactional Memory - Shavit (1995) (Correct) (31 citations)

which access a pre-determined sequence of **locations**. This class includes most of the known and on a single word. Building on the hardware **based** transactional synchronization methodology of **Software** Transactional Memory Nir Shavit MIT and wilma.cs.brown.edu/courses/cs295h/stm.ps

Articulation: An Integrated Approach to the Diagnosis.. - Peiwei Mi, Walt Scacchi (1993) (Correct) (8 citations)

necessary explanation is gathered to support the **location**. To this end, diagnosis searches for a causal into a powerful mechanism supporting process-based **software** development. Use of articulation in plan to the Diagnosis, Replanning, and Rescheduling of **Software** Process Failures 1 Peiwei Mi and Walt Scacchi www.usc.edu/dept/ATRIUM/Papers/Articulation.ps

Software Synthesis via Domain-Specific Software Architectures - Waite, Sloane (Correct)

we describe a new paradigm for **software** synthesis **based** on Domain-Specific **Software** Architectures (DSSAs) **Software** Synthesis via Domain-Specific **Software** in the construction of a building might be "install brick veneer" and "install electric wiring" www.cgl.uwaterloo.ca/~rnkazman/waite.ps

Location Consistency: Stepping Beyond the Barriers of Memory.. - Gao, Sarkar (1994) (Correct) (8 citations)

Compilers, Architectures and Parallel Systems **Location** Consistency: Stepping Beyond the Barriers of jazz.snu.ac.kr/~joonwon/dsm/paper/082_LocationConsistency_SteppingBeyondTheMemoryCoherenceBarrier_me

A Hypertext System for Integrating Heterogeneous, Autonomous.. - Noll, Scacchi (1994) (Correct) (2 citations)

software artifacts may be stored in many diverse **locations** under independent control. This may happen due called the Distributed Hypertext System (DHT)**Based** on a hypertext data model and client-server System for Integrating Heterogeneous, Autonomous **Software** Repositories John Noll and Walt Scacchi cwis.usc.edu/dept/ATRIUM/Papers/Integrating_Software_Repositories.ps

The RD13 DAQ System and the Object Management Workbench - Bob Jones (Correct)

transition from a structured analysis and design **based software** development environment for DAQ systems towards an object-oriented (OO) environment for **software** development as used in the RD13 research project ECP/PT group for providing a host site for their **installation**. It is a credit to the guidance of Livio rd13doc.cern.ch/public/doc/postscript/RD13_summerSchool95.Jones.ps

Towards a Model Theory of Figure Ground Locations - Bittner (Correct) (1 citation)

Towards A Model Theory Of Figure Ground **Locations** 1 Towards A Model Theory Of Figure Ground a regional partition of the plane. This language is **based** on the RCC-theory which is extended by a number

new-rutcor.rutgers.edu/~amai/Extended_Abstracts/TBittner.ps

Active Markov Localization for Mobile Robots - Fox, Burgard, Thrun (1998) (Correct) (21 citations)
interest in algorithms for estimating a robot's **location** from sensor data. A recent book on this issue
an active localization approach. The approach is **based** on Markov localization and provides rational
the robot to uniquely determine its **location** we **installed** a single box on one side of the corridor. This
